CME CREDITS

EACCME Accreditation

AMWC 2019 PRE-CONGRESS COURSES 03/04/2019 - 03/04/2019

Monte-Carlo, Monaco

has been granted **7 European CME credits** (ECMEC®s) by the European Accreditation Council for Continuing Medical Education (EACCME®).

Accreditation by the EACCME® confers the right to place the following statement in all communication materials including the event website, the event programme and the certificate of attendance. The following statements must be used without revision:

- The **AMWC 2019 PRE-CONGRESS COURSES, Monte-Carlo, Monaco, 03/04/2019-03/04/2019** has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with **7 European CME credits** (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

- Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME® credit to AMA credit can be found at www.ama-assn.org/education/earn-credit-participation-international-activities.

- Live educational activities, occurring outside of Canada, recognised by the UEMS-EACCME® for ECMEC®s are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.

EACCME® credits

Each participant can only receive the number of credits he/she is entitled to according to his/her actual participation at the event once he/she has completed the feedback form. Cf. criteria 9 and 23 of UEMS 2016.20.

The EACCME® awards ECMEC®s on the basis of 1 ECMEC® for one hour of CME with a maximum of 8 ECMEC®s per day. Cf. Chapter X of UEMS 2016.20.

AMWC 2019 04/04/2019 - 06/04/2019 17th Aesthetic & Anti-Aging Medicine World Congress Monte-Carlo, Monaco

AMWC

WELCOME MESSAGE

Dear Friends, Dear Colleagues,

We are truly honored and excited to welcome all of you to the annual **AMWC congress on April 4-6, 2019 in Monte-Carlo**, under the High Patronage of H.S.H. Prince Albert II of Monaco.

Under the scientific supervision of the **World Society of Interdisciplinary Anti-Aging Medicine (WOSIAM)**, the Scientific Committee is honored to bring you prominent international thought leaders and a 3-day scientific program that promises to capture your attention and offers a complete platform for education, skills enhancement, business networking, and more.

The content is a perfect fusion of continuing education, training at the highest level, open exchange of information between delegates and key opinion leaders, live demonstrations and plenary sessions with world-class faculty delivering their insights and practice pearls on the most relevant and cutting-edge techniques and products in aesthetic & anti-aging practice.

AMWC ETHICS COMMITTEE

The AMWC has evolved over the years to keep up with the latest trends in aesthetic and anti-aging medicine while maintaining the highest standards. To meet our objectives and to remain committed to the importance of patient safety and quality of treatment, the AMWC is proud to be able to appoint the Ethics Committee considered as an integral part of the organization value system. In this role, the Ethics Committee is involved in patient safety matters, legislative issues and regulatory processes.

In addition to the scientific program, AMWC 2019 also features the three unmissable Pre-congress practical courses on April 3:

AMWC THREADS ACADEMY

This training has been designed to meet the educational need of medical professionals involved in the care of patients with threads, and doctors wanting to add thread treatments to their clinic portfolio.

ADVANCED COURSE ON GENITAL REJUVENATION & COSMETIC GYNECOLOGY

This course emphasizes on the latest knowledge and breakthroughs covering a diversity of topics.

ADVANCED FACIAL AESTHETIC MASTERCLASS

This masterclass presents a new dimension of treatment based on Core Facial Aesthetics.

The continued growth and success of AMWC have been due to a combination of excellent speakers, dedicated participants, and enthusiastic exhibitors creating a unique multi-specialty atmosphere. Over 300 leading international companies are showcasing on the 5-floor exhibition area.

Enjoy the AMWC 2019 and welcome to Monaco!

AMWC Scientific and Organizing Committee

AMWC 2019 (Monaco) is COMPLIANT with the **MedTech Europe Code of Ethical Business Practice**.

AMWC THREADS ACADEMY

7:00
REGISTRATION
& BADGING

Threads provide **new perspectives, new treatments of aging** in the medico-surgical spectrum. Some are acting on sagging tissues of the face creating a 3D comprehensive modification. Others more superficial are acting as skin support.

Many questions on threads are still opened and need answer on safety, efficacy and longevity.

AMWC THREADS ACADEMY training has been designed to meet the educational need of medical professionals involved in the care of patients with threads, and doctors wanting to add thread treatments to their clinic portfolio.

Aiming for **higher standards of care and better results** for the patients, this educational program will discuss:

- In depth instruction in the anatomy and pathophysiology of the face
- Scientific evidence
- Facial dynamics
- Rheology of threads
- Specific thread techniques
- Technical issues of placing threads, the entry and exit points, directional vectors...
- **Live demonstrations:** How to use absorbable and permanent threads
- Efficacy and long-term safety on threads for facial rejuvenation

LEARNING OBJECTIVES

At the completion of this course, attendees should be able to:

- Understand the concept of **cosmetic threading**
- Successfully integrate the **thread therapy** into their practice
- Know how to properly **evaluate patients, diagnose and treatment plan** to achieve the best outcomes
- Demonstrate an **improved understanding** of how to avoid, manage, and treat possible adverse reactions and complications
- Differentiate the **various approaches** to thread techniques to determine that best suited to the patient
- Assess **controversial topics** in thread treatments in order to make more informed decisions

If you're considering offering thread lift treatments to patients, the AMWC THREADS ACADEMY training is not to be missed!

ADVANCED COURSE IN GENITAL REJUVENATION & COSMETIC GYNECOLOGY

7:00
REGISTRATION
& BADGING

Recent breakthrough in the aesthetic field and responding to the intimate needs of men and women, cosmetic gynecology and cosmetic andrology transform appearance of intimate zones to look younger and more natural. **Different cosmetic procedures** are used to reconstruct existing defects or inadequate conditions perceived by some patients. These procedures help them to regain self-confidence and can potentially improve intimate relationship and emotional life.

Despite an insufficient documentation on safety and effectiveness and undetermined standard of practice of genital cosmetic rejuvenation, a rising number of women and men are seeking for these kinds of care and procedures.

COURSE OBJECTIVES

Training and educational sessions, live demonstrations and workshops will be run by a world class faculty of opinion leaders.

The course will provide an intensive training on invasive and non-invasive procedures in aesthetic gynecology, andrology and genital rejuvenation.

With a heavy focus on **LIVE DEMONSTRATIONS** and **VIDEO TUTORIALS** of various genital aesthetic treatments, this course will emphasize practical content that can improve your technique and skills with immediate results.

Moreover, participants will be able to watch again the live demonstrations videos on-line, after the course.

Upon completion of this module, the participants will be able to:

- Understand the idea of **different treatments and their applications**
- Review **treatment protocols**
- Perform a **competent patient assessment**
- Identify **potential complications**, prevention and management strategies
- Determine **genital rejuvenation techniques**, technology application, indications and contraindications

MONACO ADVANCED FACIAL AESTHETIC MASTERCLASS

7:00
REGISTRATION
& BADGING

In depth knowledge of **Clinical Facial Anatomy** combined with **Advanced Injection Techniques** ensure SAFE and optimal results in aesthetic medicine.

The Monaco Advanced Facial Aesthetic Masterclass is aimed at high level discerning doctors in aesthetic medicine. Two modules of the **Top Ten** clinically relevant anatomic zones will be the focus of each yearly masterclass.

Periorbital region will be the focus of the morning program and **Chin & Jawline** will be covered in the afternoon.

Clinically relevant anatomy is mastered and demonstrated by top plastic surgeons who actually operate and see the **live anatomy** of facial tissues on a weekly basis. An equally eminent faculty of specialists have been selected to inject these focus zones and share the most relevant pearls and pitfalls aiming to safeguard and grow your aesthetic practice.

Carefully selected models with challenging features within the focus zones are selected with emphasis on cultural, ethnic and gender variations.

The lecture topics will be put into practice in the live show where paired injectors will have ample time to discuss surface anatomy, choice of filler and toxin, mode of injection, precautions and after care.

CME CREDITS

EACCME Accreditation

AMWC 2019 PRE-CONGRESS COURSES 03/04/2019 - 03/04/2019

Monte-Carlo, Monaco

has been granted **7 European CME credits** (ECMEC®s) by the European Accreditation Council for Continuing Medical Education (EACCME®).

Accreditation by the EACCME® confers the right to place the following statement in all communication materials including the event website, the event programme and the certificate of attendance. The following statements must be used without revision:

- The **AMWC 2019 PRE-CONGRESS COURSES, Monte-Carlo, Monaco, 03/04/2019-03/04/2019** has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with **7** European CME credits (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

- Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME® credit to AMA credit can be found at www.ama-assn.org/education/earn-credit-participation-international-activities.

- Live educational activities, occurring outside of Canada, recognised by the UEMS-EACCME® for ECMEC®s are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.

EACCME® credits

Each participant can only receive the number of credits he/she is entitled to according to his/her actual participation at the event once he/she has completed the feedback form. Cf. criteria 9 and 23 of UEMS 2016.20.

The EACCME® awards ECMEC®s on the basis of 1 ECMEC® for one hour of CME with a maximum of 8 ECMEC®s per day. Cf. Chapter X of UEMS 2016.20.

AMWC 2019 04/04/2019 - 06/04/2019 17th Aesthetic & Anti-Aging Medicine World Congress Monte-Carlo, Monaco

16:00 CHAIR: Frédéric BRACCINI | Co-CHAIR: Bob KHANNA

Aesthetic Medicine and "Anatomical Sculpture" are inseparable. The aesthetic doctor must assess and perform volumetric facial corrections with the sculptor's skills and manner.

"Fredange", an anatomist sculptor, will perform in this session an impressive "LIVE" demonstration allowing a better understanding of the subtleties for a successful facial aesthetic treatment.

Through clay modelling, the sculptor will show the key points on the same face to underline the differences between man and woman and by turning the female into male face. With Fredange's skillful hands, the effect of aging process will be directly visualized and then analyzed.

9:00 IMPROVING FILLER PLACEMENT – ARE YOU WHERE WE THINK YOU ARE?

10:30 LIVE INJECTIONS AND LIVE ULTRASOUND ANATOMY - FULL FACE

CHAIR: Kate GOLDIE, Oliver KREYDEN

One of the main challenges we face when injecting the full face with soft tissue fillers is how to be sure we are really placing the gel in the tissue plane that we are aiming for. This is especially true and important when injecting areas of the Face such as tear trough with a cannula for example, here correct placement will mean aesthetically pleasing results which last, incorrect placement can lead migration, unevenness and a puffy peri-orbital area.

This session is a **live injection session where we inject some of the most challenging areas of the face** - such as tear trough, forehead, noses, mid face and analyse how we can improve the safety and efficacy of our techniques by making sure we target the correct tissue plane.

Ultrasound will also show the reality of where major vessels are running in our live patients and how close our filler injections are to these vessels on the patients. For each live injection session we will ask our expert injectors to show and describe what it feels like, and what it looks like to be in the correct tissue plane and then we will examine with the cutting edge high frequency ultrasound where the gel is really being placed. This live injection and live anatomy using Ultrasound aims help us to become more confident in filler placement and improve our safety and outcomes for our patients.

16:00 THREADS TREATMENTS - **LIVE SHOW**

18:00 CHAIR: Bob KHANNA | Co-CHAIR: Thierry BESINS, Frédéric BRACCINI

Alternative to a surgical lift, threads become an easy option for face/body contouring, lifting and shaping. When placed under the skin, they can be used to tighten and volumize areas of the skin that are loose or sagging.

The procedure is becoming more popular than ever! THREADS LIVE SHOW at the AMWC 2019 will explore a variety of thread lift approaches from the leading specialists in this domain.

This panel will also offer a unique opportunity:

- to meet the world-renowned thread experts and observe them treating patients on stage
- to see the most efficient techniques
- to discuss the technical issues of placing threads, the entry and exit points, directional vectors...
- to learn about the efficacy and long-term safety on threads for face and body rejuvenation
- to improve the experience required to deliver these treatments in aesthetic practice

- Introduction: Do threads have a role in aesthetic medicine?

Bob KHANNA, UK

THREAD LIVE TREATMENTS by:

- Permanent threads face treatment: A long-term noninvasive Mini-lift effect
- Nose treatment with threads
- Long duration middle face thread lifting

12:00 NAVIGATING THE NEW HORIZONS OF AESTHETIC DERMATOLOGY IN ASIA

13:00 CHAIR: Chao-Chin WANG | Co-CHAIR: Uliana GOUT

This symposium is a preview of the fascinating event, AMWC Asia-TDAC 2019. It is brought to you by the Taiwanese Dermatological Association (TDA) and dedicated to those who wish to learn about the latest updates of aesthetic dermatology in Asia.

This one-hour symposium will navigate the application of artificial intelligence in practice, picosecond laser which works particularly well in Asian skin, cutting edge techniques in injectables and finally Demodex, an overlooked skin infestation easily mistaken in aesthetic practice.

The attendee will be able to learn from the **latest advancement of artificial intelligence** in aesthetic field and how the commercially available devices possibly assist in the practice.

Picosecond lasers seem to work extremely well in Asian skin with low incidence of PIH. The science behind will be unveiled by a pilot study using harmonic generation microscopy.

How to manage the difficult situation of tear trough with eye bags? The author of a published technique will guide you in a step-by-step fashion.

A correct diagnosis is halfway to success. Demodex, an overlooked skin infestation, could cause some confusions in aesthetic practice. Getting to know this old friend of skin will provide new insights in skin care and avoid pitfalls in aesthetic treatment.

- **Opening speech by Ombudsman Prof. Peter CHANG**

- Impact and application of AI technology in current aesthetic practice

14:00 "LET'S BE HONEST" - DOCTORS VS PATIENTS - EVERYDAY SCENARIOS

15:30 **LIVE DEMO**

The not ready for "Prime Time" players return! **You DO NOT want to MISS THIS!**

Have fun with our Golden Globe players who return to act out everyday scenarios touching on the weakness and strengths of all aesthetic doctors. Our players along with audience participation will take an unapologetic and raw look into 5 real life situations that surface each day in all of our clinics.

Our players promise to be honest, exposing the fears and vulnerabilities of Type A physicians managing and dealing with the most current burdens of the day. From disgruntled patients to unhappy staff. From financial goals to neglected personal lives. From practices that are too busy to those that are too slow...we present our most meaningful concerns and how we managed them. Could we or should we have done something differently? Let's decide together... All in attendance are encouraged to bring their most difficult situations as we play them back and together explore solutions.

We promise this will be one of... if not the most fun and valuable session of the conference.
